

# DRYER MAINTENANCE

## PLEASE BE REMINDED:

**Trapped lint in the dryer ducts causes a fire hazard and reduces dryer's efficiency.**

**Excessive accumulation of moisture in the ducts may result in water leaks.**

## TO PREVENT IT:

- **Clean the dryer lint filters each time dryer is used.**
- **If your system is equipped with a secondary lint trap box, clean it regularly.**
- **Run your dryer empty for 20 -30 minutes weekly.**
